

DMC Jiangyin

**HIGH QUALITY MARINE EQUIPMENT DESIGNED AND MANUFACTURED
BY DAMEN MARINE COMPONENTS**

Who we are

DMC Jiangyin (China), is one of the three production sites of Damen Marine Components. Together with our facilities in the Netherlands and Poland, we deliver high quality marine and construction components worldwide.

Our staff consists of 100 skilled and dedicated engineers and workers, and a highly experienced management team. Our staff has always worked in shipbuilding, and are well aware of our customers' needs and demands. Two dozen in-house engineers ensure all our products are fit for purpose and of the highest quality.

What we do

Based on DMC's in-house designs – created at our engineering offices in the Netherlands and Germany – we manufacture equipment from DMC's portfolio. In addition we build to client specs. Our staff has broad experience in the production of steel parts and equipment for vessels, marine and offshore structures, and even land-based applications, such as power plants.

DMC Jiangyin is especially well-prepared for handling steel constructions of all quality types and sizes – incl. thick steel fabrications – and (re)shaping them to our clients' desire.

IMPROVING VESSEL PERFORMANCE

SPECIAL REQUEST?

Our team of experienced in-house engineers is ready to design and deliver your request on demand. Whether you need a small component or in need of a large-scale project, we can handle it efficiently and promptly. Just let us know how we can assist you.

What can we manufacture for you?

Check out our wide range of products, parts and constructions to improve your vessel's performance:

- › Winches
- › Deck Equipment
- › Flex Tunnels
- › Propeller Nozzles
- › Rudders
- › Stern Tubes
- › Maritime Constructions
- › Various (civil) construction components

All our products can be certified by all Classification Societies.

Quality Assurance

To guarantee reliable results, DMC Jiangyin has its own team of Process and Quality Engineers supervising the production processes and QHSE. Quality and reliability are also enhanced because of the fact that we have our own test bench to test and check winches in-house. Note that we can work with any classification society: BV, DNV, Lloyd's Register, CCS, and more.

Quality Assurance System

DMC Yiangyin operates according to the Quality Assurance System in compliance with ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 certificate issued by Bureau Veritas.

How do we manufacture for you?

Our solid installed base of fit-for-purpose machinery comprises of, amongst others:

- › Spinning machine
- › Plate roller
- › Lathes (CNC)
- › 3D Plasma flame-cutting machine (CNC)
- › Vertical press (500 tonnes)
- › Boring/Milling machines (CNC)
- › Machining centre (CNC)
- › Welding manipulators
- › Grinding robot
- › Hydraulic pipe bending machine
